Part of Speech: Identifying the part of speech is essential to understanding the word. This is especially true for words that serve as more than one part of speech, such as *dispute*. The word *dispute* can be a verb (“*he disputed the results*”) or a noun (“*I had a dispute with my teacher*”).

Definition: Each word is defined as it is most commonly used on the SAT. For example, the word *apt* is usually used to refer to likelihood (“*he was apt to get angry*”); however, on the SAT, the word *apt* most often refers to a person’s intelligence (“*he was an apt student*”). Therefore, the flash card definition reflects the common usage on the test.

Sentence: The word is used in a sentence to illustrate and clarify its meaning and usage. Some sentences use specific words and names as memory devices.

Word Comprehension

The word that completes a Sentence Completion blank is always a perfect fit. Not only does the correct answer look right and sound right, but it also has a definition that perfectly meshes with the context of the sentence. While you do not need to know the definition of every word to get a perfect score on the SAT, a good vocabulary certainly helps make it easier to exceed your expectations.

PowerScore analyzed over 60 previous SAT tests to extract the most commonly-occurring vocabulary words. After we removed the Top 200 Critical Reading Repeat Offenders, we organized the remaining words that appeared on multiple tests by difficulty—Easy, Medium, and Hard. The words in this deck frequently appear on the SAT, and are among the hard-level vocabulary words you are expected to know.

How to Study Vocabulary Words

Studying vocabulary in multiple ways increases your retention of the definitions. Try these other study methods:

1. **Write out the words and their definitions.**
Transferring the words and their definitions to paper helps transfer the information into your long-term memory.
2. **Write new sentences for each word.**
Similarly, using the word in context helps cement its meaning.
3. **Draw a picture representing the word.**
Pictures can create a connection to the definition.
4. **Read the word aloud and say it in a sentence.**
Some students learn best by hearing information rather than by seeing it.

Flash Card Components

Word Forms: The main entry on each card is either the base word or the most commonly used form of the word, but the SAT may use any of the forms of the word listed. For example, if *indignant (adj.)* is the main word on a card, you should also be prepared to see *indignantly (adv.)* or *indignation (n.)* on the test.

Antonym Forms: An antonym is a word with opposite meaning. You must understand the meaning of both the entry word on the card and its antonym, as the SAT expects you to apply the definition of the root word to many different forms of the word. For example, if *implausible* means *unbelievable*, then *plausible* must mean *believable*.

Related Words: Some words share common roots, prefixes, or suffixes. Related words are listed to assist you in remembering the definition of the word on the card.

How to Study Vocabulary Words

5. Type the words and definitions.

Type all 100 words into a word processing document or spreadsheet. Then try to define them without looking at the definitions.

6. Analyze the roots, prefixes, and suffixes.

Can you find words that have the same suffix? If so, do they mean the same thing in both words? Learning to associate words with related words can help you solve even the toughest test questions.

7. Group words by meaning.

Many SAT words have similar meanings. Group them so you associate the meaning with all of the words in the group.

8. Have someone quiz you.

Place a check in the target if you get one right.
